COLOR OF THE MONTH

MOON SHOT VR095D

"Gray is shifting warmer and feels like a hug. This neutral has versatility and infinite livability."

- Sue Kim, Valspar Color Strategist

Why It's Trending?

Hygge (hoo-gah) was originally a Norwegian term for wellbeing and was developed into a way of living by the Danish. Living well and everyday togetherness. Creating moments to savor. The feeling is similar to cocooning trend but it is more about finding that "charm." Making those personal connections every day. Living life to the fullest.

How to Style?

With this soft, cozy neutral, create a peaceful space by decluttering and choosing meaningful things around you. The play with textures and adding tone-on-tone look highlights the quiet strength of the warm grays.
